Subject: Phase II/III Report  
Former Raytheon Facility  
Wayland, Massachusetts

**ERM**®

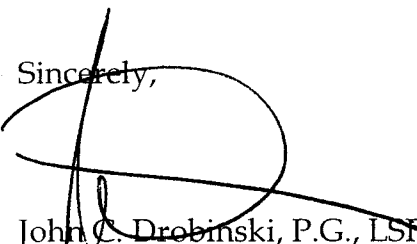

Dear Linda:

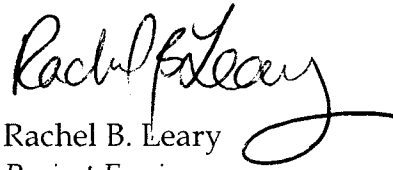

We appreciate your input and understand task of reviewing these documents is time consuming. On behalf of Raytheon Company, Environmental Resources Management (ERM) would like to clarify the submittal of the Phase II and Phase III Reports.

The changes in the final Phase II and Phase III reports were not substantive. Minor corrections were made in the text, tables and figures. The final reports were submitted on 28 November 2001 to meet the Tier IB permit deadline. However, as indicated in the notification letter you received and as discussed at the public meeting, ERM will be submitting an addendum to the Phase II and III reports that will address substantive issues in the reports, that could not be addressed in a timely manner prior to the submittal of the reports to the DEP. When the Phase II and Phase III addendum is submitted to the Department, the addendum will outline where in the reports specific changes have been made.

The response to comments submitted to Raytheon in regards to the Phase II and III reports during the public comment letter will be distributed to the document repositories next week. You will receive written notification when they are available.

Sincerely,

  
John C. Drobinski, P.G., LSP  
Principle-in-Charge

  
Rachel B. Leary  
Project Engineer
