Re: Draft Immediate Response Action Completion Report
Former Raytheon Facility
430 Boston Post Road
Wayland, Massachusetts (the "Site")
RTN 3-13574, Permit No. 133939

Dear Mr. Jeff Ritter:

Raytheon Company (Raytheon) is submitting a draft Immediate Response Action (IRA) Completion Report for public comment that summarizes the environmental assessment activities associated with the impacted wetland area. A copy of the draft IRA Completion Statement is available for your review at the Wayland Public Library and the Wayland Board of Health Office. The document is also located on the Site Webpage:

www.ermne.com
username: raytheon
password: wayland
*case sensitive

As you may recall, an IRA Plan was submitted to the Massachusetts Department of Environmental Protection in June 2000 to assess the nature and extent of impact to the wetlands. Assessment activities of the impacted wetlands have been completed and in 2004 Raytheon completed an aggressive wetland excavation and restoration program. A summary of the draft IRA Completion Report is enclosed.

Raytheon looks forward to continued participation with the community throughout this important project. The IRA Completion Report is being completed under the Public Involvement Plan (PIP) process. However, a public meeting has not been scheduled to specifically discuss this document, due to the fact that all of the data has been discussed in previous reports and public meetings. Activities associated with the excavation and restoration of the wetlands will be discussed in a future reports and public meetings.

If you have any comments on the document, please forward them in writing to me at the address provided below by August 20, 2004.

Edwin P. Madera
Raytheon Company

Summary
Immediate Response Action Completion Report
(430 Boston Post Road, Wayland, MA (the "Site"), Permit No. 133939)

Raytheon Company will be submitting an Immediate Response Action (IRA) Completion Report to the Massachusetts Department of Environmental Protection (DEP) concluding the need for further immediate response actions on the wetland portion of the Site. Future activities will be conducted under the Phase IV - Remedy Implementation Plan activities, previously submitted.

The following provides a summary of IRA activities:

- ◆ Raytheon Company submitted an IRA Plan to the DEP on June 26, 2000 to address the potential Imminent Hazard condition associated with the observed stressed vegetation in the wetland portion of the Site.
- ◆ The IRA Plan consisted of delineating the extent and nature of the impact to the wetlands, characterizing the wetland habitat, and conducting an Imminent Hazard Evaluation.
- ◆ Assessment activities of the wetlands were conducted in accordance with the Phase II Scope of Work and the Phase II Scope of Work – Addendum No. 1.
- ◆ Characterization of the wetland habitat included mapping of wetland vegetation, compiling Site specific environmental receptors and the collection of plant tissue.
- ◆ The Imminent Hazard Evaluation concluded the following:
 - ◆ Conditions at the site do not pose a potential Imminent Hazard to human health.
 - ◆ Conditions at the site do not pose a potential Imminent Hazard to public safety.
 - ◆ Conditions at the wetland portion of Site pose a potential Imminent Hazard to the environment.
- ◆ Assessment activities have been completed at the Site and were documented in the Phase II and Phase IV reports.
- ◆ In accordance with the Phase IV, excavation of approximately two-acres of impacted wetland soil/sediment, transportation excavated material off-Site for disposal, and restoration of the wetland were initiated in October 2003.
- ◆ Comprehensive response actions are being implemented in accordance with the Phase IV and should be completed during the Summer 2004. Information regarding ongoing activities will be included in the Phase IV completion report and permit closure documentation.

The assessment activities associated with the IRA have been completed and the results were shared at several public meetings and can be found in the Phase II - Comprehensive Site Assessment and Phase IV, previously submitted to the DEP. A more detailed summary of the draft IRA Completion Report can be found at the Wayland Public Library and the Wayland Board of Health and the Web Site.
