Based on feedback from the Public Involvement Plan (PIP) participants, Raytheon has revised the Phase IV – Remedy Implementation Plan to include additional perimeter sampling during wetland excavation and an updated Site Plan showing the newly installed monitoring wells in the northern portion of the Site.

Raytheon is committed to assessing and cleaning up the Site to ensure that a level of no significant risk to public safety, health and the environment is achieved. Raytheon looks forward to your continued public participation throughout the completion of this important project.

Sincerely,
