RE: Legal Notification Regarding Phase IV Completion Report
Former Raytheon Facility
430 Boston Post Road
Wayland, Massachusetts
Release Tracking Number 3-13302; Tier IB Permit Number 133939

Dear Mr. Ritter:

On behalf of Raytheon Company, Environmental Resources Management (ERM) will be submitting a Phase IV Completion Report for the above referenced site to the Massachusetts Department of Environmental Protection (DEP). In accordance with 310 CMR 40.0703(8)(a)(2), the Chief Municipal Officer and the Board of Health must be notified of the report availability. Copies of the document may be obtained at the DEP Northeast Regional Office, 1 Winter Street, Boston, Massachusetts 02108.

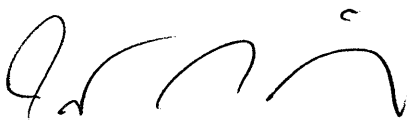

A copy of the NOTICE OF PHASE IV COMPLETION REPORT, as required by 310 CMR 40.0703(8)(a)(1), is included with this letter. This legal notice will be published in the Wayland Town Crier on 2 December 2004.

Please direct any questions or correspondence to Edwin P. Madera,
Raytheon Company, at (978) 440-1813 or the undersigned at (617) 646-
7800.

Sincerely,

John C. Drobinski, P.G., LSP
Principal-in-Charge

Jeremy J. Picard, P.G.
Project Manager

Enclosure: NOTICE OF PHASE IV COMPLETION REPORT

cc: Edwin P. Madera

NOTICE OF A PHASE IV COMPLETION REPORT

FORMER RAYTHEON FACILITY
430 BOSTON POST ROAD, WAYLAND, MASSACHUSETTS
RELEASE TRACKING NUMBER: 3-13302
TIER IB PERMIT #133939

A Phase IV Completion Report containing the elements required for an As-Built Construction Report, Final Inspection Report, and Phase IV Completion Statement in accordance with 310 CMR 40.0875, 40.0878, and 40.0879, respectively, was developed and submitted to the Massachusetts Department of Environmental Protection (DEP) for the above site pursuant to the Massachusetts Contingency Plan (310 CMR 40.0000). DEP issued a Tier I Permit for the site in November 1997. A Tier IB Permit Extension was submitted to the DEP on 15 October 2004.

The Phase IV Completion Report presents two distinct remediation efforts to respond to a release of oil and/or hazardous material at the site:

- ◆ Implementation of in-situ chemical oxidation to reduce concentrations of volatile organic compounds in groundwater.
- ◆ Excavation and remediation of wetlands soil/sediment to reduce concentrations of polychlorinated biphenyls, polyaromatic hydrocarbons, and metals.

M.G.L. c. 21E and the Massachusetts Contingency Plan provide additional opportunities for public notice of and involvement in decisions regarding response actions at disposal sites: 1) The Chief Municipal Official and Board of Health of the community in which the site is located will be notified of major milestones and events, pursuant to 310 CMR 40.1403; and 2) Upon receipt of a petition from ten or more residents of the municipality in which the disposal site is located, or of a municipality potentially affected by a disposal site, a plan for involving the public in decisions regarding response actions at the site will be prepared and implemented, pursuant to 310 CMR 40.1405.

Raytheon has implemented the Public Involvement Process in accordance with MCP requirements for the site. Documents pertaining to the Site can be found at the Board of Health, the Wayland Public Library Public Involvement Plan files, or at www.ermne.com (username = Raytheon, password = wayland).

To obtain more information on this disposal site, please contact Edwin P. Madera, Sr. Environmental Engineer, Raytheon Company, 528 Boston Post Road, Sudbury, MA, 01776, (978) 440-1813.
