

- 1) Seismic velocity values are in units of feet per second (ft/sec)
- 2) Horizontal scale, 1 inch = 100 feet
Vertical scale, 1 inch = 100 feet
Vertical exaggeration 1:1
- 3) Elevations were referenced to a datum of 123.2 feet at ground surface adjacent to MW- 267S

Prepared by Geophysical Applications Incorporated (September, 2003)
