Dear Permit Applicant:

This letter serves to acknowledge receipt of your application and the correct payment for the Tier I Permit Application, Major Modification, Transfer and/or Extension referenced above. An official start date of 12/23/03 has been established for this application. In accordance with 310 CMR 4.04(2)(a), 310 CMR 4.10(10) and 310 CMR 40.0720(4), the Department has 45 days from this date to perform its review and provide (1) a decision to deny the permit, major modification, transfer and/or extension, (2) a decision to grant the permit, major modification, transfer and/or extension with conditions or (3) a Notice of Extended Review to extend the review period for an additional 45 days.

If the Department does not provide you with a decision or notice as described in (1) through (3) above within 45 days from the official start date, your application request shall be considered presumptively approved by the Department in accordance with 310 CMR 40.0720(6). Any such approval does not alter your obligation to comply with other applicable federal, state, and local statutes, ordinances, bylaws and regulations before any work may commence. In accordance with 310 CMR 40.0751, (1) a Tier I Permit shall be effective for five years from the effective date of the initial permit, (2) any modification or transfer of a permit shall be effective for the remaining duration of the permit being modified or transferred and (3) an extension shall be effective for a period of two years beyond the expiration date of the initial permit or most recent extension, unless otherwise specified by the Department.

Should you have any questions regarding your application, please contact the reviewer, Chris Coolen or the regional BWSC Permit Section Chief, at the telephone number listed in the letterhead.

Sincerely,

Joanne Fagan
