RE: Request for Work Approval, DEP File No. 322-0564, 430 Boston Post Road, Former Raytheon Facility

Dear Mr. Drobinski and Mr. Picard:

This letter is written in response to your request for Board of Health approval of the installation of three monitoring wells as described in your request dated January 6, 2004.

The Board of Health "Minimum Sanitation Standards for Private or Semi-Public Water Supply" requires Board of Health approval for potable and irrigation wells, but does not require such approval for monitoring wells at this time. The Board of Health reviewed your request at their regularly scheduled meeting on January 13, 2004 and approved a motion that no permit approval is necessary for this activity.

If you have any questions, please feel free to contact me at 508-358-3617.

Sincerely,

  
Steven Calichman, R.S., C.H.O. *SC*  
Director of Public Health
