Re: Response to Public Comments
Former Raytheon Facility
430 Boston Post Road
Wayland, Massachusetts (the "Site")
RTN 3-13574, Permit No. 133939

Dear Mr. Jeff Ritter:

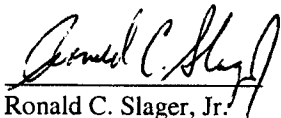

Thank you for your interest in the former Raytheon facility Site and your participation in the Public Involvement process. The purpose of this letter is to notify you that Environmental Resources Management (ERM), on behalf of Raytheon Company (Raytheon) has developed a document incorporating responses to all public comments regarding the Scope of Work (SOW): Additional Site Characterization Activities for the Site entitled, "*Response to Public Comments on Scope of Work, Former Raytheon Facility Site, 430 Boston Post Road, Wayland, Massachusetts.*" Copies of this document are available for your review and are located in the public repositories at the Wayland Public Library and the Wayland Board of Health Office.

Based on feedback from the Public Involvement Plan (PIP) participants, Raytheon has revised the scope of work to include sampling for additional chemical constituents in wetland soil and groundwater, and the installation of five additional monitoring wells and has submitted it to the Massachusetts Department of Environmental Protection (DEP). Raytheon has also included additional assessment activities beyond what was originally proposed in the SOW.

Raytheon is committed to assessing and cleaning up the Site to ensure that a level of no significant risk to public safety, health and the environment is achieved. Upon completion of the additional assessment activities, the results will be shared with the PIP at a public meeting and documented in a Phase II/III Addendum Report. If additional site characterization activities are required, a subsequent SOW will be developed and submitted to the PIP.

Again, thank you for your interest in the Site. Raytheon looks forward to continued public participation throughout the completion of this important project.

Sincerely,

Ronald C. Slager, Jr.
Raytheon Company
Restoration Program Manager
